

## **MONTANA FORENSIC SCIENCE DIVISION**

**Montana's crime laboratory in Missoula provides scientific and technical support to the law enforcement community. The staff uses state-of-the-art technology to investigate and analyze thousands of pieces of evidence each year. In September 2005, Montana's state crime lab was formally accredited through the American Society of Crime Laboratory Directors/Lab Accreditation Board. Services of the crime lab include certification of breath alcohol instruments, toxicology, chemistry, examination of firearms and tool marks, latent print and impressions evidence, trace evidence examination, serology/DNA analysis, and cause of death determination.**
